

Article VIII

SPECIAL LAND USES

Adopted June 12, 1995

Section 8.01 INTENT

This Article is intended to regulate uses which may be compatible with uses in some, but not all, locations within a particular zoning district. Among the purposes of the Special Land Use standards of this Article are to accomplish the following:

- Provide a mechanism for public input on decisions involving more intense land uses.
- Establish criteria for both new development and infill/redevelopment consistent with the Village's land use goals and objectives as stated in the Village Master Plan.
- Regulate the use of land on the basis of impact to the Village overall, and adjacent properties in particular.
- Promote a planned and orderly development pattern which can be served by public facilities and service in a cost-effective manner.
- Ensure uses can be accommodated by the environmental capability of specific sites.
- Provide site design standards to diminish negative impacts of potentially conflicting land uses.
- Provide greater flexibility to integrate land uses within the Village.

This Article provides both general standards for all Special Land Uses (Section 8.03) and specific location, site or operational standards for particular Special Land Uses (Section 8.11). The process for a Special Land Use involves a Public Hearing with the Planning Commission with final review on the use and site plan by the Village Council. Approval of any Special Land Use requires a Special Land Use Permit.
